

I understand that you have a new broadcast service known as LPFM. I must say that I disagree that there is little value in national or regional services to FM translators. The station I listen to comes out of California, call letters K-Love. I ask that you please not enact a LPFM broadcaster providing other programming. K-Love is my favorite station, and I listen to it everyday. It would be such a disappointment to lose this wonderful station. I support it financially and would miss it terribly. I have several family and friends that feel the same way. There is no other station that compares to K-Love in my area. Thank you for considering my request. Carol Bjork
